

兔抗 STAT4 多克隆抗体

- 中文名称: 兔抗 STAT4 多克隆抗体
- 英文名称: Anti-STAT4 (Ab-693) rabbit polyclonal antibody
- 别 名: SLEB11
- 相关类别: 一抗
- 抗 原: STAT4
- 储 存: 冷冻 (-20℃) 避光
- 宿 主: Rabbit
- 反应种属: Human, Mouse, Rat
- 标记物: Unconjugate
- 克隆类型: rabbit polyclonal

技术规格

Background:	The protein encoded by this gene is a member of the S TAT family of transcription factors. In response to cytoki nes and growth factors, STAT family members are phosp horylated by the receptor associated kinases, and then f orm homo- or heterodimers that translocate to the cell nucleus where they act as transcription activators. This p rotein is essential for mediating responses to IL12 in lym phocytes, and regulating the differentiation of T helper c ells. Mutations in this gene may be associated with syste mic lupus erythematosus and rheumatoid arthritis. Altern ate splicing results in multiple transcript variants that en code the same protein.
-------------	---

Applications:	WB, WB,IHC
Name of antibody:	STAT4
Immunogen:	Synthetic peptide of human STAT4 (Ab-693)
Full name:	signal transducer and activator of transcription 4
Synonyms :	SLEB11
SwissProt:	Q14765
IHC positive control:	Human breast carcinoma
IHC Recommend dilution:	50-300
WB Predicted band size:	86 kDa
WB Positive control:	Hela, A431 and Jurkat cells
WB Recommended dilution:	500-2000
