

兔抗 ADA 多克隆抗体

中文名称：兔抗 ADA 多克隆抗体

英文名称：Anti-ADA rabbit polyclonal antibody

相关类别：一抗

储存：冷冻（-20℃）

抗原：ADA

宿主：Rabbit

反应种属：Human, Mouse, Rat

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:	This gene encodes an enzyme that catalyzes the hydrolysis of adenosine to inosine. Various mutations have been described for this gene and have been linked to human diseases. Deficiency in this enzyme causes a form of severe combined immunodeficiency disease (SCID), in which there is dysfunction of both B and T lymphocytes with impaired cellular immunity and decreased production of immunoglobulins, whereas elevated levels of this enzyme have been associated with congenital hemolytic anemia.
Applications:	ELISA, WB, IHC
Name of antibody:	ADA
Immunogen:	Fusion protein of human ADA
Full name:	Adenosine deaminase
SwissProt:	P00813

ELISA Recommended dilution:	1000-2000
IHC positive control:	Human lung cancer and Human gastric cancer
IHC Recommend dilution:	25-100
WB Predicted band size:	41 kDa
WB Positive control:	Raji cells
WB Recommended dilution:	200-1000
