

兔抗 CTNNAL1 多克隆抗体

- 中文名称：兔抗 CTNNAL1 多克隆抗体
- 英文名称：Anti-CTNNAL1 rabbit polyclonal antibody
- 别名：catenin alpha like 1; ACRP; CLLP; alpha-CATU
- 抗原：CTNNAL1
- 储存：冷冻（-20℃）
- 宿主：Rabbit
- 相关类别：一抗
- 反应种属：Human, Mouse
- 标记物：Unconjugate
- 克隆类型：rabbit polyclonal

技术规格

Background:

CTNNAL1 (catenin (cadherin-associated protein), alpha-like 1), also known as CLLP or alpha-CATU, is a 734 amino acid cytoplasmic peripheral membrane protein belonging to the vinculin/alpha-catenin family. Expressed at high levels in adrenal gland and present at lower levels in neural tissues, CTNNAL1 may be involved in the regulation of Rho pathway signaling by providing a scaffold for the Lbc Rho guanine nucleotide exchange factor 1 (RhoGEF p115). It is suggested that CTNNAL1 is down-regulated in pancreatic carcinoma undergoing differentiation and apoptosis. Existing as three isoforms produced by alternative splicing events, CTNNAL1 may co

	ntribute to the wound repair and proliferation of human bronchial epithelial cells (HBEC).
Applications:	ELISA, IHC
Name of antibody:	CTNNAL1
Immunogen:	Fusion protein of human CTNNAL1
Full name:	catenin alpha like 1
Synonyms:	ACRP; CLLP; alpha-CATU
SwissProt:	Q9UBT7
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human liver cancer and human gastric cancer
IHC Recommend dilution:	30-150
