

兔抗 DLK1 多克隆抗体

中文名称：兔抗 DLK1 多克隆抗体

英文名称：Anti-DLK1 rabbit polyclonal antibody

别名：DLK; FA1; ZOG; pG2; DLK-1; PREF1; Delta1; Pref-1

相关类别：一抗

抗原：DLK1

储存：冷冻 (-20℃)

宿主：Rabbit

反应种属：Human, Mouse

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:

This gene encodes a transmembrane protein that contains multiple epidermal growth factor repeats that functions as a regulator of cell growth. The encoded protein is involved in the differentiation of several cell types including adipocytes. This gene is located in a region of chromosome 14 frequently showing uniparental disomy, and is imprinted and expressed from the paternal allele. A single nucleotide variant in this gene is associated with child and adolescent obesity and shows polar overdominance, where heterozygotes carrying an active paternal allele express the phenotype, while mutant homozygotes are normal.

Applications:	ELISA, WB, IHC
Name of antibody:	DLK1
Immunogen:	Fusion protein of human DLK1
Full name:	delta like non-canonical Notch ligand 1
Synonyms:	DLK; FA1; ZOG; pG2; DLK-1; PREF1; Delta1; Pref-1
SwissProt:	P80370
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human colorectal cancer
IHC Recommend dilution:	25-100
WB Predicted band size:	41 kDa
WB Positive control:	HEPG2 and 231 cell lysates
WB Recommended dilution:	500-2000
